We are cutting our subscription list down to prompt payers. Many who are able and willing to pay for their paper neglect the matter until the acnt accumulates to an extent we are not able to stand. It takes money to run a newspaper and it is only by a rigid, impartial cutting that we can bring our list to a profitable standpoint. If you find yourself in the above situation you can blame your own negli gence and not our disregard of your redit. Our western subscribers will find themselves out if not paid up, for we lose postage in addition to furnishing them free papers.
